Benefits for Retailers & Shoppers

Increased Shipping Revenue

Up to 40% of shoppers choose higher-revenue, date-specific Fenix delivery options when they are displayed – which means that Fenix typically pays for itself from day one.

Pre-Integrated Carriers

Fenix is pre-integrated with major US carriers including USPS, FedEx, UPS, and DHL, and can access your negotiated rates in real-time to provide optimal shipping options for each customer.

Personalized Shipping Experience

Fenix can be configured to provide each customer with accurate, personalized order cut-off times and delivery dates on the Product, Cart, and Checkout pages.

Optimized Fulfillment and Delivery

Fenix optimizes shipping options for cost and/or speed in real-time based on inventory and customer location, product weight/dimensions, and your negotiated carrier rates and services.

The Fenix Intelligent Delivery Platform uses AI and Machine Learning to improve the shopper experience

Fenix provides easy-to-integrate APIs and supports all major eCommerce platforms

RETAILERS WHO TRUST US
